

EQUIVALENT DECIMALS

I - 26

Follow the Path

Make a path from *Start* to *End* by following decimals equal to 1.24.

You can only move left, right, or down. The path will give the answer to this riddle:

What does a bee use to fix its hair? _____

124 tenths D	Start	1 and 24 hundredths H	12 hundredths + 4 tenths R
14 tenths + 2 hundredths S	12 hundredths + 12 tenths T	1 + 2 tenths + 4 hundredths O	12 tenths + 4 hundredths N
1 and 24 tenths E	11 tenths + 4 hundredths W	0.1 + 2 + 0.04 C	124 hundredths E
11 tenths + 14 hundredths M	1 + 24 hundredths O	10 tenths + 24 hundredths C	2 tenths more than 1.04 Y
1 + 0.2 + 0.04 B	2 hundredths + 14 tenths H	12 and 4 hundredths K	4 tenths more than 1.2 O
End	12 tenths + 4 tenths L	14 tenths + 2 D	204 hundredths A

Think Critically

What method did you use to find the path?
