

# Geometric Lines

Name \_\_\_\_\_

## Street Sense

Ms. Ima Map used a neighborhood map to help her students understand geometric lines.

1. Name two streets that run parallel to 5th Street.  
\_\_\_\_\_
- Name two streets that are not parallel to 5th Street.  
\_\_\_\_\_
2. Name a street that intersects Scioto Road.  
\_\_\_\_\_
3. Are Dublin Road and 7th Street perpendicular or parallel to each other?  
\_\_\_\_\_
4. Does Broad Street intersect Front Avenue or is it parallel to Front?  
\_\_\_\_\_
5. Name the first street directly south of Front Avenue and parallel to it.  
\_\_\_\_\_
6. Which street runs perpendicular to 5th Street and is the street farthest south shown on the map?  
\_\_\_\_\_
7. Which two streets intersect directly west of the school?  
\_\_\_\_\_
8. Name the three roads that do not run directly north and south or east and west.  
\_\_\_\_\_

### EXTENSION

Draw a map of your immediate area. Determine streets that are parallel and perpendicular.
